**Information on Electoral Register and Financial Records**

The Electoral Register provides details of public entries, that is any person electing to have their information withheld from publication will not be reported. The report provided by Credit Check Services will highlight if the current entry is withheld from publication.

The CAIS financial database provides details of accounts linked to the applicant; organisations providing credit such as Banks, Utilities, and Mail Order companies share their information on a voluntary basis. There will be occasions where an individual's account details are not shared on CAIS. For example people who relocate sometimes maintain their financial accounts from another address (e.g. a family member) and as such CAIS will not record any records at their current residential address.
